Project Readiness Checklist

Use this checklist to prepare for a focused discussion about the civil work, project interfaces and qualification requirements.

☐ **01 / PROJECT & CONTACTS**

Project name and location; owner, developer or EPC contact; contracting approach and the work package under review.

☐ **02 / DRAWINGS & SCOPE**

Current drawings and specifications, revision status, limits of work, quantity information and known exclusions.

☐ **03 / SITE INFORMATION**

Survey and topographic data, geotechnical information, existing utilities, access routes and environmental constraints.

☐ **04 / SCHEDULE & INTERFACES**

Bid date, planned mobilization, key milestones, owner-furnished equipment and work by other contractors.

☐ **05 / FIELD READINESS**

Work-area access, laydown, haul or delivery restrictions, equipment requirements and site-specific onboarding.

☐ **06 / QUALIFICATION & HANDOVER**

Hiring-client requirements, reporting years, insurance / certificate-holder details, inspection and turnover records.

Ready to discuss the scope?
